THE PRELUDE PHOENIX

Skill level

Intermediate

The pattern is written to make a 150cm x 150cm / 59"x59" blanket

It uses US terminology.

Before you begin crocheting, always read through the pattern first to give you a better understanding of what you will need to do.

Kits available [here](#)

Phoenix began as a notion for something fun and easy. I say a notion because when I set out with the design I had no clue as to what it would be! But that's nothing unusual because I never know where a design will take me.

For me, creativity is not a plan set in stone, it's more of an organic, ever changing flow. Something that just happens.

Little did I know that the design would become somewhat cathartic and with each formation of stitches that makes little hearts, or leaves kisses, or brings butterflies, or sprinkles flowers – it is a reminder that even when the sky is grey and life is full of yucky stuff, sometimes you have to kick off your shoes and dance in the rain.

For my bestest friend and her special Phoenix.

MATERIALS

- DK yarn of your choice, I used ColourSpun (50g – 125m)
- 4mm hook
- Scissors
- Needle for sewing in ends

You are more than welcome to work the blanket in any yarn of your choice, however, depending on yarn and tension, you may have a size difference.

YARN COLOURS AND QUANTITIES

- Usually all of my quantities are rounded up to the nearest 50g.
- The tutorials for this pattern are worked in Colourway 1.
- If you are not working your blanket in my choice of yarn, your yarn quantities may differ.
- Yarn thickness, hook size and tension will affect the overall size of your blanket.
- Colours will be listed round for round. Colourway 2 will be listed in blue font.

TENSION AND GAUGE

- If you have purchased a yarn pack you will need to match my tension and gauge or you may run short of yarn.
- If you are using your own yarn it is **not** imperative that you match my tension, but it is **very** important to keep your tension even throughout your project.
- While working the pattern, you may find that your blanket picks up slight wobbles, especially after back post rounds. This is normal and will sort itself out as you work further along.
- You may find the stitches in the blanket curling slightly forward in some parts, the stitch work will ease into place further along.
- There will be notes throughout the pattern that will advise you when to pay extra attention to tension.
- If you are concerned about your tension as you work through the pattern, I would recommend giving your work a gentle blocking after each part.
- A 3-round solid dc square = 7cm.

- At the end of Part 1 your square should measure 12cm.

TENSION AND GAUGE

- At the end of Part 2 your square should measure 32cm.

- At the end of Part 3 your square should measure 42.5cm

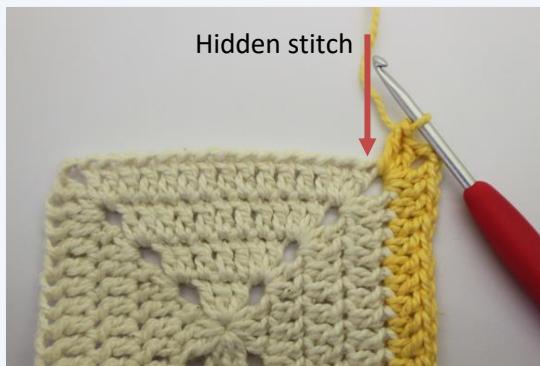

STUFFS TO KNOW

This pattern uses US terminology.

- You will note that my starting chain for a dc and a hdc is 2, i.e. ch2. This is just a personal preference. You are welcome to start with ch3 for a dc and ch2 for a hdc or even start with a standing stitch. Do what is comfortable for you.
- In certain rounds of the pattern you will be asked to begin with a standing stitch which gives a neater finish. If you are struggling it is fine to begin with a standard ch2.
- Stitch counts for the corner are given separately to stitches per side.
- () Blue parentheses are used in some of the trickier rounds giving further instructions to help get your stitch placement right.
- () Black parentheses indicate a repeat. A specified set of stitches to be repeated the indicated amount of times.
- [] Square brackets indicate a repeat. You will need to repeat this set of instructions the specified amount of times.
- { } Curly brackets indicate a complete corner.
- *.* Indicates a complete repeat.
- While working through the pattern you will notice certain “oddities” e.g. 1sc, ch2, 2sc in the corner space, or maybe a stitch worked at one end of a side but not the other. This is part of the design, trust the pattern. My testers have come up with a special name for it – you’ll see it when you get there. ☺ Correct stitch placement is of the utmost importance throughout the pattern. This is not one you can fudge, so always check that you have the correct number of stitches and they have been worked in the right place.
- Chain spaces are important in the pattern so pay extra attention to instructions. A chain space added could cause a wobble in the blanket, a chain space omitted could cause a flower to skew.
- If you are following Colourway 2, there will be certain rounds where the end instructions, such as “Fasten off and secure” or “**Do not end off**”, might not apply. Keep a close eye on the colour changes listed by round as instructions are not given for Colourway 2.
- To continue working in the same colour you just have to slip stitch into the starting stitch or space and begin as the pattern instructs.

- Several rounds mention the hidden stitch. First, what is this hidden stitch? When you have completed your corner it often hides that first stitch after the corner (on the previous round), so always move the corner slightly to work that first stitch. This stitch is counted as the first stitch unless you are asked to "sk the hidden st." Only skip the hidden stitch where I've indicated to do so.

Sometimes there may be a hidden stitch after a larger cluster. We have tried to anticipate where that may happen and provided a note.

- Please keep a close eye on starting stitches, (stitches worked at the beginning of the round) these will differ to the stitches worked in the main body of the round.
- In certain rounds of the pattern, we have included further tutorials to clarify the stitch work.

TUTORIALS

Back loops only – BLO

- Work through the Back Loops Only (BLO), turn your work over and you will see a ‘third loop’ under the stitch you are working on. Make sure you work through this loop as well to prevent your stitches from pulling open.
- This technique does not apply when working into a sc.

TUTORIALS

Cross double crochet – crdc

- Skip a stitch and work a dc into the next stitch.
- Work a dc into the skipped stitch – cross double crochet complete.

TUTORIALS

Double crochet 2 together – dc2tog

This stitch is worked in two different ways in the pattern, as a decrease and as a decorative cluster stitch (the pattern will instruct you as to which way to work the stitch).

Dc2tog over 2sts (decrease)

- Yo, insert the hook into the first indicated stitch and pull up a loop – 3 loops on the hook.
- Yo, pull through 2 loops – 2 loops on the hook.
- Yo, insert the hook into the second indicated stitch and pull up a loop – 4 loops on the hook.
- Yo, pull through 2 loops – 3 loops on the hook.
- Yo, pull through all 3 loops.

TUTORIALS

Dc2tog into a stitch or space (cluster stitch)

- Yo, insert the hook into the indicated stitch or space and pull up a loop – 3 loops on the hook.
- Yo, pull through 2 loops – 2 loops on the hook.
- Yo, insert the hook into the same stitch or space and pull up a loop – 4 loops on the hook.
- Yo, pull through 2 loops – 3 loops on the hook.

- Yo, pull through 2 loops – 3 loops on the hook.
- Yo, pull through 2 loops – 2 loops on the hook.
- Yo, pull through last 2 loops.

TUTORIALS

Puff stitches

The pattern uses a standard puff stitch, '**puff st**' and an extended puff st, '**ex-puff st**' (the pattern will instruct you as to which to use).

In some parts you will be asked to work more than one puff stitch into a space and with bulkier yarns you may find the **space** too tight or you may simply prefer a finer puff stitch. The beauty of a puff stitch is you can tailor the stitch by simply working fewer yarn overs. The trick to a neat puff stitch is tight and even loops.

Extended puff stitch – ex-puff st

- Yo, insert hook into the indicated stitch or space and pull up a loop – 3 loops on the hook.
- (Yo, insert the hook into the same stitch or space and pull up a loop) – twice. You should have 7 loops on the hook.
- Yo, pull through 6 loops – 2 loops on the hook.
- Yo, pull through remaining 2 loops.

TUTORIALS

Puff stitch – puff st

- Yo, insert the hook into the indicated stitch or space and pull up a loop – 3 loops on the hook.
- (Yo, insert the hook into the same stitch or space and pull up a loop) – 3 times, you should have 9 loops on the hook.
- Yo, pull through all 9 loops.
- Ch1 to close the puff.

TUTORIALS

Popcorn stitches

The pattern uses a double crochet popcorn, '**popcorn**', and a half double crochet popcorn, '**hdc-popcorn**'.

Half double crochet popcorn – hdc-popcorn

- Work 4hdc into the same stitch.
- Pull the loop of the stitch open slightly and remove the hook from the last hdc.
- Insert the hook from the front of your work, under both loops of the first hdc.
- Pull the loop from the last hdc back through both loops of the first hdc.
- Close the popcorn with a ch1.

TUTORIALS

Popcorn

- Work 4dc into the indicated stitch or space.
- Pull the loop of the stitch open slightly and remove the hook from the last dc.
- Insert your hook, from the front, under the top loops of the first worked dc.
- Pull the loop from the last worked dc, back through the first dc.
- Close the popcorn with a ch1.

TUTORIALS

Single crochet 2 together – sc2tog

- Insert the hook into the first indicated stitch and pull up a loop.
- Insert the hook into the second indicated stitch and pull up a loop.
- Yo, pull through all 3 loops on the hook.

In certain parts of the pattern you will work a sc decrease over two **spaces**:

- Insert the hook into the first indicated space and pull up a loop.
- Sk the sc.
- Insert the hook into the second indicated space and pull up a loop.
- Yo, pull through all the loops on the hook.

TUTORIALS

Standing stitches

Standing double crochet – standing dc

- Begin with a slip knot on your hook.
- Yo, hold the loops in place with your fingers.
- Insert the hook into the indicated stitch or space and pull up a loop – 3 loops on the hook.
- Yo, pull through 2 loops – twice.

- Standing half double crochet will be worked in the same way, remember to complete the hdc as normal.

TUTORIALS

Standing back post double crochet – standing bpdc

- Begin with a slip knot on your hook.
- Yo, hold the loops in place with your fingers.
- Insert the hook from the back to the front, around the post of the indicated stitch and pull up a loop - 3 loops on the hook.
- Yo, pull through 2 loops – twice.

- Standing back post half double crochet will be worked the same way, remember to complete the hdc as normal.

TUTORIALS

Spike single crochet – spk-sc

A spike stitch is worked into a skipped stitch or space, one or two rounds below the one you are currently working. Make sure that you elongate your stitches to the correct height or it may cause your work to pull.

- Insert your hook into the indicated stitch or space, pull up a loop.
- Make sure that the loop is elongated to the correct height, 2 loops on the hook.
- Yo, pull through both loops.
